Lancaster Farming

VOL. 8 NO. 43 | Lancaster Farming, Saturday, September 28, 1963 | $2 Per Year

CHAMPION AND RESERVE CHAMPION beef steers at the West Lampeter Community Fair are shown by their youthful owners Wednesday night. The champion, an angus, left, is shown by Myron Landis, and the shorthorn is exhibited by Donna Hess, both of Strasburg. L. F. Photo.

Second Year 4-H Member Wins Lampeter Beef Show

Eleven-year-old Myron Landis, Strasburg R1, showed a blocky, 900 pound Angus to the grand championship in the West Lampeter Community Fair beef Show Wednesday night.

Joey, the Angus, bred by Kinloch Farms, Supply, Virginia, was the second steer fed by Myron for 4-H competition. Two other children of Mr and Mrs. Myron Landis, Sr., figured in the placings at the show. Mary Lou showed the champion Hereford and Frieda's steer placed third in the Hereford competition.

At the 1959 edition of the same show, Nancy, an older sister of Myron, paved the way by showing an angus to the top spot.

Reserve honors at Wednesday night's exhibition went to the shorthorn, Corky II, shown by Donna Hess, the 11 year-old daughter of Mr and Mrs. Elvin Hess, Jr, Strasburg R1. The steer was from the herd of Harold Endslow, Marietta

Second Consecutive Win For Mast At Ephrata Fair

Nineteen year old Wesley Mast, Elverson R2, made it two-in-a-row Thursday night at the Ephrata Fair when his 925 pound Angus steer waddled away with the purple rosette

Wesley, the son of Mr and Mrs Jacob Mast, who turned the trick last year with a Kinloch Farms black, drew a 450 pound 4-H calf from the Old Home Manor Farm, Homer City, Pa, last November. The win came as a surprise to the veteran showman, he said, but it was no surprise to the crowd of spectators when judge Harold Stewart, Dauphin County Agent slapped the

Frey Holstein Is Champion In Lampeter Fair Dairy Show

Fultonway Rachel Ann, a five-year-old Holstein cow exhibited by J. Mowery Frey, Jr, 101 Beaver Valley Pike, won the breed championship Thursday afternoon at the West Lampeter Community Fair.

Rachel Ann, the daughter of Frey's excellent Rachel cow, is now milking over 22,000 pounds of milk and nearly 800 pounds of fat. She was grand champion at the Southeastern Pennsylvania Artificial Breeders Cooperative show as a two-year-old and a four-year-old.

The junior champion and reserve grand champion was the senior yearling exhibited by Robert Kauffman, Elizabethtown R1.

Roy Breneman, Willow Street R1, had the top Guernsey, a senior yearling, exhibited Thursday by Arthur Breneman. The reserve champion Guernsey was Melvin Breneman's aged cow.

Marian J. Herr, Holtwood R1, repeated her showing at the Solanco Fair a week earlier when her four-year-old Jersey won that breed's top honor. Reserve spot was taken by a two-year-old shown by Marian's brother Marvin.

The lone Ayrshire in the show was a senior yearling shown by Barbara Kupp, Manheim R3.

Following are the placings of judge, John Smith, York County Agent.

AYRSHIRE

Senior Yearling — 1, Barbara Ann Kupp, Manheim R3.

JERSEY

Senior Calf — 1, R. J. Brinton, Quarryville R1 (junior champion).

Two-year-old Cow — 1, Marvin Herr, Holtwood R1 (reserve grand champion).

Three-year-old Cow — 1, Marian Herr, Holtwood R1 (grand champion)

GUERNSEY

Junior Calf — 1, Arthur

1 p.m — New Holland 4-H beef club roundup at the fair tent Sale of beef and hogs at 4 p m. in the New Holland Sales Stables.

4:30 p m. — County teachers of vocational agriculture meet at Solanco High School.

Oct. 4 — 8 p m — County Holstein Breeders Association directors meet at the Southeastern Pennsylvania Artificial Breeders laboratory, 230 Bypass.

Red Rose Farmer Degrees Given Forty Nine Boys By County FFA

Forty-nine blue jacketed Future Farmers of America were elected to receive the Red Rose Farmer degree at a meeting of the County FFA Monday night at Elizabethtown.

The degree, highest awarded by the county association, is considered a step toward the coveted Keystone Farmer degree awarded each year in January. Degrees will be conferred at the November County meeting.

The Grasslands Chapter with 10 successful applicants had more than any other chapter in the county.

Star Farmer of the county was Harold Brubaker, son of Mr. and Mrs Paul Brubaker, Mount Joy R1. Brubaker was also named vice president of the county association at the same meeting.

Following are the names of the successful candidates listed by chapter

WITNESS OAK FFA

Harold J Brubaker, Mount Joy R1; Dennis Drager, John Hess, and Lee H Stauffer, Marietta R1, and David Becker, Mount Joy R2

ELIZABETHTOWN FFA

Nevin Hiestand, Marietta R1, and Dennis and Donald Patches, Elizabethtown R1.

CLOISTER FFA

Thomas G. Spitler and David Hersey, Sheridan R1; Barry Herneisen and David Zimmerman, Reinholds R1; Paul R. Weaver, Ephrata R1, and Dav-

Breed Ass'ns Give Calves To Three Boys

County dairy breed associations presented three purebred heifer calves to Future Farmers of America from Solanco, Pequea Valley and Manheim Central Thursday

Recipients of the calves, presented during ceremonies at the West Lampeter Community Fair, were

Holstein — James Dombach, seventeen-year-old son of Mrs Earla B and the late Ira Dombach, Manheim R2

Guernsey — Eugene Denlinger, fifteen-year-old son of Mr and Mrs Ellis Denlinger, Gordonville R1

Ayrshire — James Esbenshade, sixteen-year-old son of Mr and Mrs Milton Esbenshade, Quarryville R2

Winners of the annual calf awards were selected Monday night during interviews with applicants at Elizabethtown Area High School

Dombach, a senior at Manheim Central High School, won an Osborndale Ivanhoe daughter bred by Henry E.

(Continued on Page 13)

Farmers Urged To Meet With Agri. Secretary

Farmers and other interested citizens of this area were urged today to take part in the "Report and Review" meeting with Secretary of Agriculture Orville L Freeman on Tuesday, October 1, in Harrisburg. The meeting will be held at 2:00 P.M at the Zembo Mosque, Third and Division Street, Harrisburg.

(Continued on Page 4)

FIVE-DAY WEATHER FORECAST

Temperatures during the next five days are expected to average two to seven degrees below the normal range of 51 at night to 71 in the afternoon. Cooler weather over the weekend is expected with little change thereafter. Precipitation may total a half inch. Rain may develop about Monday and continue into Tuesday.

Weed-Free Tobacco Beds

Here's how to do it. Sprinkle VAPAM® on your seed beds now. In the next 30 days it kills all those weeds and grasses, germinating weed seeds, soil fungi and those invisible nematodes. Come seeding time you have the healthiest soil in the state! You get more seedlings per square yard — up to twice as many. And only a few — if any! — weeds. Your seedlings are really strong and vigorous. You can transplant fast for the best crop you've ever seen.

Result is hundreds of dollars saved in back-breaking work and weeding costs. Yet VAPAM costs only a penny per square foot. Make more profit next year! Don't share your crop with weeds and soil borne diseases. Put VAPAM on your seed beds now. No special equipment needed. It's so easy and safe to sprinkle on. You get stronger seedlings, weed control and more profit. Do it now for best results. Approved by the Department of Agriculture for all food and fibre crops.

Price Continues Down Trend

Live broiler prices declined nearly a quarter cent during the 24 hour period ending 10 30 Friday morning. Demand was light for the light auction offerings.

Prices reported ranged 13.8 to 14.6 for 1,153,800 head at farms during the period. Reported purchases included 403,400 head sold at Thursday's auction in Selbyville, Del.

With practically no plants operating Saturday, estimated slaughter by Eastern Shore processors for the weekend was 736,000 head compared to the 831,000 head last weekend.

From Where We Stand . . .

Is Type Judging Obsolete?

Have you seen any of the livestock shows in the county this summer and fall?

We have been particularly pleased with the high quality animals exhibited by Lancaster County youth, livestock men and dairymen. We believe the animals on exhibit have more type and breed characteristics than any group of exhibits we have seen in many years.

But is type a good indicator of productive ability — the only true worth of farm livestock?

We believe it is.

We know that farm livestock is much more efficient than it was a few years ago. Cows produce more milk; hens lay more eggs; steers put on weight faster and on less feed, and hogs reach market sooner and leaner with more of the red meat wanted by the consumer.

What accounts for this tremendous gain in efficiency? The feed manufacturers say it is better nutrition. The equipment manufacturers say it is better housing and care. The farm management experts say it is a change in farming practices. The pharmaceutical companies say it is better animal health, and the breeders say it is greater inherited abilities.

To an extent, they are all correct.

Feed is better; housing and management are better; drugs bring about better health; and the animals do have more inherited ability than did their ancestors. But we believe that all these would be of little value if the type of our livestock had not changed along with the other advances.

Not long ago a writer for one of the dairy breed association magazines wrote an article charging (in effect) that the classification program is a hoax. He maintained that dairymen should forget type and breed for production — only.

We do not agree with this philosophy. Let's take a couple of examples.

Look at the pictures of the "Excellent" cows of a few decades ago. Many of them had pendulous udders. Many had weak legs or crooked backs, but they were the best of that generation. They probably had good production records for that day, too, but we know now that pendulous udders and weak legs tend to put a cow out of the milking string much too soon.

Or suppose you took an old Texas Longhorn and fed and cared for him in the most modern fashion. Maybe he would produce meat faster than anything else in the pen, but where could you sell all that bone and gristle and horn?

We believe improvement in type has had as much as anything else to do with improved efficiency of farm livestock, but this point is hard to prove. We have yardsticks with which to test rate of gain, rate of milk production and per cent of butterfat, eggs per hen per year, and units of production per unit of feed, but we have never had a reliable measure of type.

Unfortunately, type is somewhat subject to the whims of the consuming public and the individual show judges, but just because type is not an infallable guide to efficiency, we should not pitch the baby out with the bath. We have added newer and more accurate measurements to this nebulous thing called type, and with every innovation, the evaluations become more valuable. We are not for less emphasis on type, but more. Of course we must continue to use production as a guide in breeding better livestock, but we must not relegate stock shows to limbo just because they are not perfect measurements of ability.

At least that's how it looks from where we stand.

Farm Leaders

What's a farm leader worth?

Community leaders often don't realize what a vo-ag instructor, county agent or some other agricultural leader may be contributing to the local economy.

John Zwiebel, adult vo-ag instructor at Owatonna, Minn., has some interesting figures on this. His adult program serves about 200 families annually and he does a complete record analysis on about 50 farms. Zwiebel recently summarized accounts of 14 families that have been in the program the last 14 years. Their average gross income increased from $13,398 to $24,002. Each year that Zwiebel worked with these families they increased their purchases in the community by better than $2,000 per farm. When you consider that each dollar spent by a farmer may be turned over three to five times in the local economy, these 14 farmers added $112,000 per year to local business. If the 50 families with which Zwiebel works intensively do as well, he generates $1 million to local business in three to four years.

Get-Up-And-Go-Power — Milk was recommended to athletes for more "get-up-and-go power" as a result of recent physical efficiency studies. Reporting on tests held at the University of Connecticut, Dr. Hollis F. Fait said there is also no reason to exclude milk from the pregame meals of athletes. Tests revealed that milk does not cause stomach upset, sluggishness, loss agility, lack of endurance, or decreased speed of movement, Dr. Fait reported. Also ruled out were supposed effects of laziness or "cotton mouth" — a dryness and discomfort found to arise from the individual's emotional state.

★ ★ ★ ★

Not the Bite But Fear — Snakes bite about 1,500 people a year, says the American Medical Association, of whom only about 20 die. One authority maintains that of those who die, intense fear probably is responsible for more fatalities than actual poison.

★ ★ ★ ★

Must Be So, Then — Khrushchev says Soviet farmers are using 7 times as much labor to produce grain as in the U. S., 5 times more to grow potatoes, 6 times more to grow beets, 14 times as much to raise cattle, over 16 times as much to raise pigs.

Life of Faith

Lesson for September 29, 1963

Bible Material: Genesis; Psalm 105: 1-24; Galatians 3; Hebrews 11:1-22.
Devotional Reading: Psalm 105:1-11.

"FAITH" is despised by people who don't have it and don't understand it. Faith is caricatured as an attitude of ignorance. It is compared to taking a chance or going on an errrand that is bound to fail. Faith is said (by people who have none) to be like a man buying medicines and swallowing them with outlooking at the labels or reading the directions. Faith has been compared to a blind man going down into the cellar at midnight, without a light, looking for a black cat that isn't there.

Dr. Foreman

Faith's uncertainties

Nobody who has long lived the life of faith is bothered by such misunderstandings. For one thing, he knows very well that the man who tells you he believes only what he can test with his own five senses does not really mean it, because if you believe only what you can personally test, you will have an unhappy time of it. Suppose you try eating breakfast without faith some morning. The label on the cereal box says it has riboflavin and vitamin B and a lot of other things. Do you know that none of these is poisonous? Do you know they're all there? You know nothing of the sort; you believe it. You go to the hospital for an operation; do you know the surgeon's hand won't slip? No, but you trust yourself to him all the same. There can't be any more certainty than the certainty of faith, in most circumstances of life.

The men whose lives have been briefly before us in these past few weeks, Abraham, Jacob and Joseph, knew what the uncertainties of faith can be. Abraham went "not knowing whither he went." Jacob had no assurance that his God would prosper him. He hoped so, to be sure; but to the end of his days there were question marks in his future. So with Joseph; for long years, though the word is not written large in the stories of him, the fact of his faith is there. If Joseph had yielded to the tyranny of the obvious, he would have stayed a slave. He lived by what he did not see.

The certainties of faith

Did you ever fly, as a passenger, in a little plane just big enough for two? Just for a joke, while you were fastening your seat belt, you may have sung a verse or two of "Dig my grave with a silver spade." But you buckled that belt and up you rose into the scary sky. Now you believed in a lot of things. You believed the engine would not "conk out," you believed the wings were fastened with something stronger than glue, you believed the tail assembly would hang together, that the direction-finder and the altimeter and the dozen or so other gadgets on the instrument board were accurate, you believed in all the radio control towers and beacons you overflew; but when you come right down to it, what you really put faith in was not a what, it was a who. You trusted the pilot. You (not being a pilot, and not used to flying perhaps) could not predict what he would do next. If you never studied aerodynamics, the chances are that you didn't even know exactly how the plane stays aloft. You certainly could not read the inside of the pilot's mind. But you trusted him all the same.

God is the pilot

You see there are a lot of things to trust in even a small airplane. But you don't really trust the things, but the pilot, a person. You trust him (among other things) to check everything about the plane, you put your faith in his knowledge and in his skills. If you couldn't trust him, you couldn't very well trust the plane.

The life of faith in God is like that. There are many things we have to believe in, on our flight through this life. But essentially, religious faith is faith in a person, our Father in heaven. We can't see what He is doing, we can't understand all He does even when we see Him do it, we don't know why this or that happens. There's a great deal more that we don't know than we do know. But we trust Him. The great difference between God and any airline pilot is that even the boldest and most skilful pilots know there are kinds of clouds they dare not enter, weather conditions they cannot control. The best of them can be grounded. But the true God is never grounded, for no cloud is too dark and storm-swept for Him.

Now Is The Time . . .

BY MAX SMITH

MAX SMITH

To Ensile Frosted Forage Crops

With fields of sudan grass or the sudax hybrids that have considerable growth when frosted, it is suggested that the crop be put into the silo When grazed or fed green there is danger of prussic acid poisoning after a killing frost, however, by putting it into the silo and allow it to ferment for at least three weeks the danger will be eliminated. Some grass silage preservative or feed additive should be put with the mixture in order to have higher quality silage.

To Keep Cattle From Acorns

Cows that are in milk production should not be allowed to eat acorns. Many oak trees will start dropping the acorns early in the fall; many cows will fill up on the acorns if they get started to eat them. A few acorns each day will reduce milk flow but not make the animal sick; larger quantities will put the animal off feed and dry up the milk flow; once the flow is lost from acorns it may not return to normal until the following lactation. Reserve the acorns for the squirrels — not the cows.

To Soil Test This Fall

Land owners who do their soil testing this fall before the ground freezes will be one jump ahead for next spring's work; they will have time to plan their lime and fertilizer needs and avoid any delay next spring. In the case of wheat ground that is to be seeded down to legumes next spring or summer, and is in need of lime, it is better to put it on the fall and work it into the ground before the allows time for the lime to sweeten the soil.

To Beware Of Lead Poisoning

Many animals are lost each year due to lead poisoning; in many cases the trouble is traced to freshly painted buildings or fences, or to empty, discarded paint cans. Some spray materials include arsenates that may drift or be washed into streams or into grazing areas. All painters and livestock owners are urged to be extremely careful with lead

● Farmers Urged

(Continued from Page 1)

Fred G. Seldomridge, Chairman, Agricultural Stabilization and Conservation County Committee, has been informed that the meeting is one of 13 the Secretary will hold this fall with farmers and others in rural America in nearly every major agricultural area in the Nation. The meetings will be geared toward "dirt farmer", participation, with plenty of time provided for a question-and-answer period, and farmers' advice and recommendations encouraged.

Poultry Team Wins Second At Richmond

Pennsylvania's champion 4-H poultry judging team took second place in poultry judging at the Atlantic Rural Exposition Monday at Richmond Virginia.

The state team, Lancaster County's contingent, scored a possible 2090 out of a possible 2400 points. Indiana's winning team had a total of 2123 points.

Robert Henry, New Providence R1, with 719 points out of a possible 800, was third high individual judge in the contest, while his twin brother Albert was fourth with 706 points. Gary Porter, Washington Boro R1, the third team member, had 666 points, and the team alternate, J. Kenneth Hess, Manheim R3, scored 643. Top individual judge in the contest had 723 points.

The team, selected during state 4-H days at the Pennsylvania State University in August, will judge both poultry and eggs during the NEPPCO exposition on October 8 in Harrisburg.

Third to sixth team placings at Richmond were Virginia, Maryland, West Virginia, and South Carolina.

The Pennsylvania 4-H livestock judging team, from York County, placed first in the contest. This team will judge at the Pennsylvania Livestock Exposition in Harrisburg, and in the national 4-H contest at the International Livestock Exposition in Chicago in November.

CAGE LAYER OPERATORS!

Good Management Makes Any Cage Feed Better Including Ours, Of Course

Here are the records of 3 flocks of cage layers for a 12 week period ending August 23rd.

The birds are different, but all are housed in older type cage facilities. Non-insulated, windows, no special ventilation.

FLOCK	# Birds start of period	Age at end of period (in weeks)	# of periods in production	% production hen day basis for the 3 periods	Lbs. feed per doz. 3 periods	Average mortality per period	% mortality for 3 periods
A	3580	61	10-¼	70	3.38	0.836%	2.51
B	4041	49	7-¼	66	3.40	1.23%	3.70
C	3528	38	4-½	79	3.18	0.6%	1.78

Note the difference in performance . . .
Quality of the pullets,
Management,
Housing,
All are important factors.

We get many records showing better performance,
especially in the newer type of controlled environment housing.

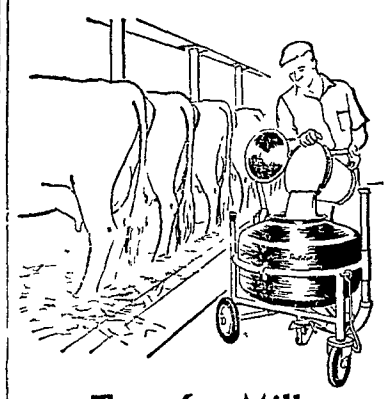
FINEST SERVICE ANYWHERE!



Transfer Milk Efficiently From Cow to Bulk Cooler

The "Sputnick" MILK-PORTER is the cleanest, most efficient method for transferring milk from cow to bulk cooler.

- Manufactured from heavy gauge stainless steel.
- Lid seals tightly to keep milk germ free.
- Passes through openings 29" and over.
- Moves quiet and easily on rubber-tired, ball bearing wheels.
- Does away with long, expensive pipe lines, milk pumps and releaser.
- Two sizes.
- Low-cost sanitizing.

RECENTLY ELECTED COUNTY FFA OFFICERS are, left to right, front row, Stanley Graver, John Frey, Donald Ranck, and Dale Hershey; Back row, Donald Miller, Daniel Erb, Thomas Spitler, Bill Fisher, and Rickey Fritz. At far right is Henry Givler, Pequea Valley teacher of vocational agriculture and advisor of the county association. Absent for the picture was Harold Brubaker.

L. F. Photo

John Frey Is County FFA President Elect

John Frey, Quarryville R2 was elected president of the County chapter Future Farmers of America Monday night at a meeting in Elizabethtown High School

The sixteen-year-old son of Mrs Fred Frey a junior at Solanco High School, will succeed Kenneth Martin Denver R1 next January when the newly elected officers will be installed

Harold J Brubaker, Mount Joy R1, son of Mr and Mrs Paul Brubaker, was elected first vice president, and William Fisher, East Earl R1, second vice president Donald Ranck, Paradise R1, is recording secretary, Daniel Erb, Columbia R2, corresponding secretary, Stanley Graver, Lancaster R7, treasurer, Dale Hershey, Manheim R3, reporter, Rickey Fritz, Lititz R3, sentinel, Donald Miller, Elizabethtown R1, chaplain, and Thomas Spitler, Sheridan R1, Parliamentarian.

The new president was student advisor of the state champion parliamentary proceedure team at Penn State in June. He won the county FFA swine management contest earlier this year, and showed the champion FFA steer at Solanco Fair last week At the same show he was first in the FFA tractor driving contest

A calf out of his first FFA project beef cow won the on-rail championship at the Eastern National Livestock Exposition at Timonium, Md, last year.

Frey is currently president of his local chapter and was elected to receive the Red Rose Farmer degree at Monday night's meeting.

Plant Perennials

September is the month to plan and plant many perennials, advises Mrs Lynn. B. Smith, extension floriculturist at Penn State. This includes iris, peonies, daylilies, hardy bulbs, phlox and many others. She suggests buying plants locally or from very nearby mail-order firms, because these plants will have less adjusting to do before winter.

H&N CHAMPION EGG PRODUCERS

1963 H & N "Nick Chicks" are improved models of the H & N "Nick Chicks" which earned an award* for highest income ($3.12 per hen housed) *USDA summary report ARS 44-79-2.

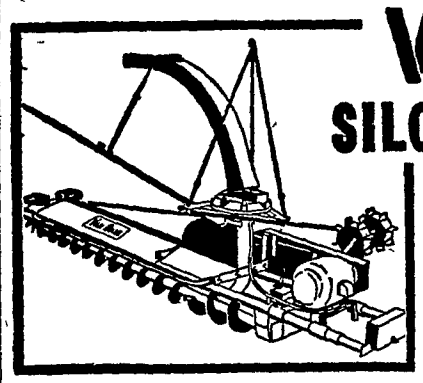
Complete automatic feeding for DAIRY COWS and CATTLE!

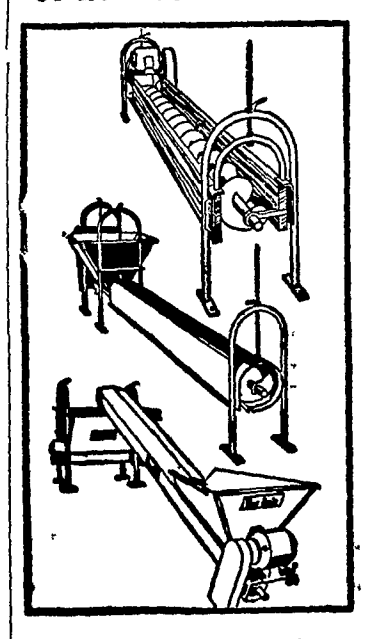
VanDale SILO UNLOADERS



Double augers deliver more silage per minute even when silage is deeply frozen . . . and at a lower operating cost. Patented V-paddle impellers *throw* . . . not blow . . . silage down chute. Adjustable drive hubs give positive traction in all types of silage.

Three-point suspension keeps unloader level at all times.

Plus a complete line of bunk feeders to meet your exact needs



Straight-out Auger Feeder

With VanDale units you can custom build the bunk feeding set-up to fit your needs. Drive section includes hopper, drive assembly and 10', high capacity 9" auger. Additional auger sections are in 10' units and are easily coupled.

Feed-R-Flo Bunk Feeder

The new, all-metal complete feeder. High capacity 9" auger rotates within tube. Gives all-weather protection, even feed distribution, and lower operating cost.

Conveyor Trough

An important link in automatic feeding. Positioned below silo-chute, the VanDale conveyor trough carries the silage to the bunk feeder. Primary section includes hopper, drive assembly, and 10', 9" auger. Additional 10' auger sections may be added.

See us for modern automatic feeding equipment

Powers Honored By Co. Agents

Distinguished service awards were given today (Sept. 26) to three Pennsylvania county agricultural agents at the close of the 48th annual meeting of the National Asociation of County Agricultural Agents at Minneapolis, Minn.

Agents honored were Russell E Mollenauer, Meadville, Crawford county; S Glenn Ellenberger, Allentown, Lehigh county, and Robert A. Powers, Jr., West Chester, Chester county.

All are members of the Cooperative Extension Service staff of the Pennsylvania State University, and all are Penn State graduates

ROBERT POWERS

Powers joined the Extension Service as assistant Chester county agent in April, 1943. His headquarters have always been in Chester, although he worked part time for two years in Delaware county. He was promoted to associate county agent in 1949, and to county agent in August 1951.

During his career, Powers has had experience in all phases of the agricultural extension program. Some of his activities include:

Soil improvement and management, including work in soil testing, soil fertility, erosion control, and farm drainage.

Forage crops improvement, including hay and pasture management, forage crop insect control, and grassland farming

Dairy and livestock improvement and management, including DHIA, brucellosis control, 4-H dairy calf club work, and dairy demonstration farm.

Horticultural specialty work, including commercial mushrooms, nursery and greenhouse flower crops, and amateur gardening, especially in the ornamental horticulture field.

With Chester county having the second largest agricultural income in Pennsylvania, Powers has used the press camera, newspapers, radio (15 years) and television (7 years) to aid in furthering a program of mutual farm-city understanding and interdependence.

In 1960, he was awarded the Dow Study Tour award, the first Pennsylvania agent to be so honored.

Powers is the son of Mr. and Mrs. Robert A. Powers, Laughlintown, and is married to the former Elizabeth Bertolette, of Somers Point, N J. They have four children, Susan, Ann, James, and Richard.

Providence 4-H Sees Safety Film

The Providence 4-H Club met recently for their August business meeting Mr George Moreland Director of Safety Services, Lancaster County Chapter, American Red Cross was the Club's speaker

He presented a film entitled "Rescue Breathing" supplied by the Bell Telephone Company. The Resuscitated Anne Doll added to the demonstration, and each of the Club members were given a chance to give Anne artificial respiration.

The club adjourned to meet again Sept 26, at 7:30 p m. in the Providence Elementary School.

More Steer Feeders Are Using HORNCO Concentrates Then Ever Before!!

Because

1. Hornco is a balanced concentrate containing Stilbosol*, Phosphorus, Vitamin A and D and all the other ingredients necessary for fast, low cost gains and top herd health.

2. Hornco is manufactured locally (assures freshness) by the experienced beef feed company.

Cooking With Evaporated Milk

By Mrs. Richard C. Spence

Whether it be a rich, fancy cake or a smooth creamy sauce you can make it extra rich and extra delicious by using double-rich evaporated milk. Besides all the nourishment it gives you, it is also economical to use.

If you have never used evaporated milk in a cake try this One-Egg Cake.

TENDER ONE-EGG CAKE

- ⅔ cup evaporated milk
- ⅓ cup water
- 2 cups sifted all-purpose flour
- 1¼ cups sugar
- 2½ teaspoons baking powder
- 1 teaspoon salt
- ⅓ cup soft shortening
- 1 teaspoon vanilla
- 1 egg

Mix evaporated milk and water. Sift together into a bowl the flour, sugar, baking powder and salt. Add two-third of the milk mixture, the shortening and vanilla to the sifted dry ingredients. Beat hard 2 minutes with electric mixer at medium speed, or by hand. Add rest of the milk mixture and the egg Beat hard 2 minutes more Pour batter into a greased and floured 9-inch square pan. Bake near center of oven 40 to 45 minutes at 350 degrees

* * *

CHOCOLATE FEATHER CAKE

- ⅔ cup evaporated milk
- ⅓ cup water
- 2 teaspoons vinegar or lemon juice
- 1⅔ cups sifted, all-purpose flour
- ¾ teaspoon baking soda
- 1 teaspoon salt
- ½ cup soft shortening
- 1¼ cups sugar
- 2 eggs
- Two 1-ounce squares unsweetened chocolate, melted

Mix evaporated milk, water and vinegar or lemon juice and let stand until needed. Sift onto a piece of waxed paper the flour, baking soda and salt. Put shortening, sugar and eggs into a large bowl. Beat hard with electric mixer at medium speed, or by hand, until fluffy. Beat in melted chocolate. Beat in well ⅓ of flour mixture. Mix in ½ of milk mixture. Beat in well another ⅓ of flour; then rest of milk mixture. Beat in well rest of flour. Pour batter into a greased and floured 9-inch square pan. Bake in a 350 degree oven 40 to 45 minutes.

POUND CAKE

- 2⅔ cups sifted, all-purpose flour
- 1½ teaspoons baking powder
- ⅛ teaspoon salt
- 1 cup soft butter
- 1½ cups sugar
- 1 teaspoon vanilla
- 3 eggs
- ¼ cup evaporated milk
- ¼ cup water

Sift flour, baking powder and salt together Put butter, sugar and vanilla into a large bowl. Beat hard with electric mixer at medium speed, or by hand, until fluffy. Add eggs and beat until very light and fluffy. Beat in well ⅓ of flour mixture. Beat in ½ of evaporated milk and water mixture. Beat in well another ⅓ of flour; then rest of milk mixture. Beat in well rest of flour. Pour batter into a greased and floured 9 x 5 x 3-inch loaf pan. Bake in a 350 degree oven for 1 hour and 10 minutes.

* * *

SNOWY WHITE CAKE

- 2⅓ cups sifted all-purpose flour
- 1½ cups sugar
- 4 teaspoons baking powder
- 1 teaspoon salt
- ½ cup soft shortening
- ⅔ cup evaporated milk
- ½ cup water
- 2 teaspoons vanilla
- 4 egg whites

Sift flour, sugar, baking powder and salt into a large bowl. Add shortening, evaporated milk, water and vanilla. Beat hard 2 minutes with electric mixer at medium speed, or by hand. Add egg whites and beat hard 2 minutes more. Pour batter into 2 greased and floured 9-inch round cake pans. Bake in a 350 degree oven 30 to 35 minutes. When cool, frost with Bonbon Frosting*. Spoon Deep Chocolate Glaze+ just around the edge of frosted cake, letting it drip down sides.

BONBON FROSTING

- ½ cup soft butter or margarine
- ¼ cup evaporated milk
- 2 teaspoons vanilla
- 1 pound powdered sugar, sifted

Put butter, evaporated milk and vanilla in a small bowl. Stir in, just about a cup at a time, the sugar Stir just until smooth. Makes enough to frost tops and sides of two 8 or 9-inch layers of cake, or 36 cupcakes. If frosting becomes too thick to spread easily add a few more drops of evaporated milk.

***DEEP CHOCOLATE GLAZE**

- 6-ounce package semi-sweet chocolate pieces
- 2 tablespoons light corn syrup
- ¼ cup evaporated milk
- 1 tablespoon butter or margarine

Stir over low heat until smooth and creamy. Take off heat. When cool, spoon just around edge of cake frosted on top and sides with Bonbon Frosting, letting glaze drip down the sides. If glaze becomes too thick to spoon easily, add a few more drops of evaporated milk. Good, too, served over slices of unfrosted cake. Makes 1 cup.

* * *

Delicious cookies can be made, too, with evaporated milk.

JIFFY PEANUT COOKIES

- 2 cups sifted, all-purpose flour
- 1 cup sugar
- 2 teaspoons baking powder
- 2 eggs
- ½ cup soft shortening
- ⅓ cup evaporated milk
- ½ teaspoon vanilla
- 1½ cups coarsely cut salted peanuts

Sift flour, sugar, and baking powder into a large bowl. Add shortening, eggs, evaporated milk and vanilla; mix well. Mix in peanuts With 2 teaspoons drop mixture about 2 inches apart onto ungreased cookie sheet. Bake in a 350 degree oven about 15 minutes or until light brown. Take from sheet at once. Makes about 4 dozen cookies.

* * *

CRISPY COCONUT DROPS

- 1 cup sifted all-purpose flour
- ¼ teaspoon baking powder
- ½ teaspoon baking soda
- ¼ teaspoon salt
- ½ cup soft shortening
- 1¼ cups brown sugar
- 1 egg
- ¼ cup evaporated milk
- ½ teaspoon vanilla
- 1½ cups crisp rice cereal
- 1¼ cups cut-up coconut

Sift flour, baking powder, baking soda and salt into a large bowl. Add shortening, brown sugar, egg, evaporated milk and vanilla; mix well. Mix in the rice cereal and coconut. With 2 teaspoons, drop mixture about 2 inches apart onto greased cookie sheet. Bake in a 350 degree oven 12 to 15 minutes, or until light brown. Take from sheet at once. Makes about 4 dozen cookies.

* * *

CHOCOLATE GRAHAM SQUARES

- 1¼ cups fine graham cracker crumbs
- ½ cup evaporated milk
- ½ cup sugar
- ⅓ cup semi-sweet chocolate pieces
- ½ cup broken nuts
- 1 teaspoon vanilla

Mix all ingredients together; spread in a well-greased 8-inch square pan. Bake in a 350 de-

...ree oven for 30 minutes or ...ntil sides pull away from ...an. Take from oven and cool. ...tore covered in pan. These ...quares will stay moist for sev...eral days. Cut into 1½ inch ...quares as needed. Makes about ...2 dozen squares.

* * *

...Evaporated milk can be used ...n meat and vegetable dishes, ...oo.

SALMON PATTIES

...1 can (7¾ ounces) sal...mon
...12 soda crackers, crushed fine
...2 teaspoons instant minced onion
...1 egg
...⅓ cup evaporated milk
...1½ tablespoons butter

...Remove skin and bones from ...almon; flake salmon in liquid. ...Add crushed crackers, onion, ...egg and evaporated milk. Mix ...well. Let stand 3-4 minutes. ...Shape into 4 balls. Melt butter ...over low heat in skillet. Add ...almon balls leaving space be...tween as balls flatten into pat...ties on cooking. Cook about 5 minutes on each side.

* * *

CREAMED PEAS

1 package (10-ounces) frozen peas
¼ cup water
½ tesapoon salt
1 tablespoon butter
1½ tablespoons flour
1 cup evaporated milk

Add peas to water along with salt. Bring to a boil and cook 3-4 minutes. Add 1 tablespoon butter; stir until melted. Remove from heat; blend in flour; stir in evaporated milk. Cook over low heat until thickened, stirring occasionally.

* * *

EXTRA-GOOD BAKED BEANS

2 tablespoons firmly packed brown sugar
2 teaspoons flour
⅓ cup evaporated milk
2 teaspoons prepared mustard
1 8-ounce can pork and beans

Mix brown sugar and flour in small saucepan. Blend in milk and mustard. Stir in pork and beans. Cover and cook over low heat 10 minutes, stirring once during cooking period. Serve with butter grilled hamburgers or frankfurters.

* * *

SUPER SCRAMBLED EGGS

½ cup evaporated milk
⅛ teaspoon salt
Dash of pepper
3 eggs
1½ ounces cream cheese, cubed

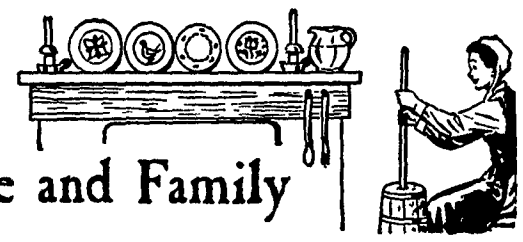
Add milk, salt and pepper to eggs; beat until light and fluffy. Melt sufficient butter in skillet to cover bottom. Pour in egg mixture, cover and cook over low heat 3 minutes; stir lightly, add cubed cream cheese; cover and cook 3 minutes longer.

* * *

ORANGE COCONUT AMBROSIA

1 package orange gelatin
1 cup boiling water
1 cup orange juice
1 cup shredded, chopped coconut
⅔ cup icy cold evaporated milk
1 tablespoon lemon juice
⅓ cup sugar

Dissolve gelatin in boiling water. Add orange juice and chill until partially set. Fold in coconut. Whip milk, using chilled beater and bowl. When stiff add 1 tablespoon lemon juice and ⅓ cup sugar. Fold into orange mixture. Chill in mixing bowl until set. Garnish servings with fresh orange sections and toasted coconut.



For the Farm Wife and Family

Ladies, Have You Heard? . . .

By: Jane Thurston, Extension Home Economist

Before You Store Summer Clothing

THURSTON

You'll thank yourself next spring if you store summer clothing carefully. Examine garments for needed repairs, such as broken seams, ripped hems, loose buttons, or other signs of wear. Mend these before you wash or dryclean garments for storage If you repair before storing, clothes will be ready for use when the next season arrives.

Washable dresses must be completely free of starch — starch is excellent food for silverfish. You may wish to store cottons folded flat in drawers or large boxes without ironing before packing.

Have nonwashable garments drycleaned, then hag them in garment bags If a garment doesn't need drycleaning, air and brush it before storing Hang belts separately — their weight pulls and distorts the garments

Clean hats, shoes, and handbags before storing Stuff tissue paper in handbags and put shoetrees in shoes. You can put hats in boxes, perhaps several in one box depending on size and shape of hats Put crumpled tissue paper in and around hats to prevent crushing.

To discourage mildew, store clothing and accessories in a dry place and one that's not too warm.

Food Facts Worth Knowing

A two-person household spends 24 percent of its food dollars on meals away from home

Small households spend more on meat, poultry, fish, eggs, fruits, and vegetables on a per person basis than do large households

Only 34 percent of the households with six or more persons get enough of all eight basic nutrients that the National Research Council recommends

But, 55 to 60 percent of the households with two to four members have balanced diets.

For You To Try

Add roasted diced almonds to your favorite brownie recipe for special lunch box treats. For the family's supper, top these almond-laden brownies with ice cream and hot fudge sauce Sprinkle with more almonds if you wish

Sandwiches are easy for young fingers to hold onto. The appearance of the sandwich itself intrigues a child especially if you cut the sandwich into child-size pieces. Cutting is easy when you use a sharp knife to cut sandwiches into squares, triangles, or diamonds Or you may wish to use animal shape cooky cutters

These families all agree . . . the cost of *FLAMELESS*

ELECTRIC HOME HEATING is reasonable!

Here are just four of the more than 3000 PP&L customer families who have already installed flameless electric heat. They say it's clean! carefree! comfort-plus! and reasonable in cost!

- Electric heat eliminates the need for chimneys and bulky fuel storage equipment.
- Does away with periodic cleaning, burner adjustment or repairs . . . in fact, the need for any service is rare.
- Costs ¼ less than just two years ago, thanks to PP&L's new low-heating rate.

Check with your Recommended Reddy Kilowatt Eelctric Home-Heating Dealer today. See how little it will cost to heat your home with flameless electricity.

ALL "Certified" SEED IS NOT ALIKE

DON'T LET ANYBODY tell you all Certified seed is the same. There IS a difference! A. H. Hoffman Seeds, Inc. is not only the largest producer of "Certified" winter grains in Pennsylvania, but the superior quality of Hoffman "Certified" seeds exceed the state certification standards by a wide margin.

FOR EXAMPLE:

Penna. Certification Requirements for Wheat		A. H. Hoffman's Certified PENNOLL WHEAT (3 year average)
99.00% (minimum)	PURITY	99.75%
1.00% (max.)	INERT MATTER	0.25%
90.00% (min.)	GERMINATION	94.7%
58 lbs. (minimum)	WT. PER BU.	61.5 lbs.

The certification tag is not enough. Hoffman tags on the seed you sow can mean bigger crop profits for you. That fact has been demonstrated over 60 years.

Get complete information and prices on Hoffman Wong BARLEY; Norline OATS, Red Coat, Pennoll, Dual, and Seneca WHEAT, Balboa and Tetra-Petkus RYE.

Contact your Hoffman Seedman or phone 898-3421 for delivery to your farm.

Farm Women 15 Elect Two

Two officers were elected at a recent meeting of Farm Women 15. They were Mrs. Martin Greenleaf, recording secretary, and Mrs. Chester L. Ross, treasurer.

The meeting was held in Hope School, Kirkwood R1, with the owner, Mrs Abram Herr, acting as hostess. Cohostesses were Mrs. Robert Reath, Mrs. Herbert Lowe, and Mrs Kenneth Shoemaker. Devotions were led by Mrs. Herr and followed by the flag salute.

Roll call was answered by anecodotes remembered from members' first year in school. Some members recalled using slates with soapstone pencils.

President, Mrs John Frantz presided at the meeting.

The society voted to give $25 to the Community Drive; $5 to the American Cancer Society; $5 to the Arthritis and Rheumatism Foundation; and $10 to sponsor a Solanco High School Girl in the Miss Solanco Contest.

The 25th anniversary of Farm Women Society 15 will be celebrated the latter part of October. A meeting of the committee in charge of Mrs. Edwin Witmer, chairman, will be held Monday, Sept. 23 at the home of Mrs. Almus Shoemaker, Bartville, 7:30 p.m.

Reports from the members who attended Home Makers Camp at Camp Swatara, Lebanon Co., were heard.

The program for the meeting included a Current Events Quizled by Mrs. Warren Smith. Winners were Mrs Granville Trimble, first prize, Mrs. Charles Anderson, 2nd prize.

Refreshments were served in paper bags such as one might carry lunch in to school or to a meeting.

Farm Women 8 Host 4-H Show

Society of Farm Women 8 played host to the Elizabethtown-Donegal 4-H flower and vegetable club roundup last Saturday.

The meeting was held in the home of Mrs. Paul Erb, Mount Joy R1. Mrs. William Heisey presided. Mrs. Harold Fry, Lincoln, a teacher at Ephrata High School, served as judge for the club roundups.

First prize winners were: 1st year flowers, Cynthia [illegible] land; 2nd year flowers, Li[illegible] Eshleman; 3rd year flowe[illegible] Florence Bixler; 4th y[illegible] flowers, Donna Hossler, [illegible] door garden, Lois Hossl[illegible] vegetable garden, 1st y[illegible] Donna Hossler, and vegeta[illegible] garden, 3rd year, Virginia [illegible] vell.

Mrs. Kenneth Eshlem[illegible] county president, was the m[illegible] speaker.

Farm-City Week Dates Scheduled

November 22-28 is set for observing Farm-City Week in Lancaster County. The selection of M. M. Smith of Lancaster as County Chairman has been announced by Thomas H. Patton, State Chairman and Associate Director of Co-operative Extension Service, Pennsylvania State University.

Smith will be in charge of this year's county observances, which will place emphasis on urban and farm folks as part-

Farm-City Week is aimed at getting a better understanding between the farm and nonfarm families in the Commonwealth. Special events are planned where farm and city people can get together, exchange ideas, express their problems and witness their basic similarities. These events are sponsored by local representatives of agriculture, government, education and civic groups.

This is the ninth consecutive Farm-City Week to be observed in Pennsylvania. This year's theme is "Farm and City — Partners for a Prosperous Pennsylvania." Emphasis will be placed on pointing out that the farmers and city people are heavily dependent upon each other for their basic needs of food, shelter and clothing.

The objective of the 1963 event is to stress the importance of agriculture and business to the farm and city people alike throughout Lancaster County.

Avoid left turns in congested or fast-moving traffic, warns the Allstate Safety Crusade. A turning car is a sitting duck for a rear end collision and frequently forces other cars into dangerous moves.

Manheim FFA Committees Are Named

By: Jim Gehman, Reporter

Manheim Chapter Future Farmers voted to have a food booth at Manheim Farm Show at a recent meeting in the Manheim Central High School. The booth will serve ice cream, pizza and soft drinks. Appointed to a committee to make arrangements for the booth were James Gehman, Carl Fahnestock and Lester Weidman. The chapter will also have a float in the farm show parade.

Clair Bruckhart, chairman of the farming program committee, reported that chapter's tobacco is abo harvested. Bruckhart, Ga fever, and Phil Harnley named to a committee vestigate the purchase purebred Yorkshire boa

Dale Hershey, John and Paul Martin we pointed to select can for Chapter Sweetheart.

Dale Hershey was ele represent the chapter candidate for county office when elections a later this year.

Livengood Wins Market Classes At Lampeter

Earl Livengood, 1648 Morningside Drive, lived quite well for a while Wednesday as he saw his Yorkshire market hogs sweep all three classes at the West Lampeter Community Fair

Livengood, eighteen, fattened 28 head of hogs this summer on the 12 acre truck farm he operates with his parents, Mr and Mrs. Phares Livengood The former Lampeter-Strasburg High School vocational agriculture student said a woodworking and blacksmith business "seems to be taking over" the farm operation, but the four sows he owns turned out the champion pen of four, champion pen of two and the top individual market hog. In addition to the champion pen of four, which were mediumweights, Livengood also had the top lightweight pen.

In the breeding stock division, Paul Welk, Strasburg R1, showed his aged Yorkshire to the championship of the sow class. He also had the top sow and litter in the show.

William Houser, Lampeter had the reserve champion sow, a mature Chester White Robert Bitts took Hampshire honors with a junior spring gilt.

Judge Joe Lutz, associate Adams County agent, placed the swine classes as follows

BREEDING SWINE

Hampshire

Junior Spring Gilt — 1, Robert Bitts, Willow Street R1.

Chester White

Aged Sow — 1, William Houser, Lampeter (reserve champion sow).

Yorkshire

Senior Spring Gilt — 1, Elmer Stoltzfus, Holtwood R2

Junior Spring Gilt — 1, Elmer Stoltzfus.

Sow and Litter — 1, Paul Welk, Strasburg R1.

Aged Sow — 1, Paul Welk (champion sow); 2, Elmer Stoltzfus.

MARKET HOGS

Individual

Lightweight — 1, Earl Livengood, 1648 Morningside Dr. (champion); 2, William Houser (reserve champion).

Pen of 2

Mediumweight — 1, Earl Livengood (champion); 2, William Houser (reserve champion).

Pen of 4

Lightweight — 1, Earl Livengood.

Mediumweight — 1, Earl Livengood (champion); 2, Willow Glen Farm, Strasburg R1.

Heavyweight — 1, Kenneth Kametz, Strasburg R1 (reserve champion).

CHAMPION PEN OF FOUR market hogs as w as champion pen of two and top individual mark hog at the West Lampeter Community Fair, Wedn day, were shown by Earl Livengood, 1648 Morningsi Drive, Lancaster. The four mediumweight Yorkshi here gained the judge's nod because of their uniform ty. L. F. Pho

● Beef Show

(Continued from Page 1)

R1 Donna had the grand champion Shorthorn at the 1963 Farm Show in Harrisburg

Mary Jane Herr, Refton took both the fitting and showmanship honors at the fair. Kenneth Hess, Strasburg R1 was runnerup showman, and Bertha Boose, Old Philadelphia Pike, was second in fitting.

In the FFA division of the show, Lee Stauffer, Mount Joy R1, showed the champion Angus, while Hereford honors went to James Nolt, Mount Joy

Following are the other placings of judge, Joe Lutz, associate Adams County agent.

FFA ANGUS

1, Lee Stauffer, Mount Joy R1, 2, John Campbell, New Holland

FFA HEREFORD

1, James Nolt, Mount Joy; 2, Lee Stauffer, 3, David Becker, Mount Joy R2; 4, Robert Denlinger, Marietta R1.

4-H ANGUS

1, Myron Landis Jr., Strasburg R1 (champion), 2, Kenneth Hess, Strasburg R1, 3, Robert Greider, Columbia R1; 4, Edward Donough, Columbia R1; 5, Dale Bushong, Columbia R1.

4-H HEREFORD

1, Mary Lou Landis, Strasburg R1; 2, Carol Hess, Strasburg R1; 3, Freida Landis, Strasburg R1; 4, Mary Jane Herr, Refton; 5, Sandy Noll, 240 Centerville Rd.

4-H SHORTHORN

1, Donna Jean Hess, Strasburg R1, (reserve champion).

SHOWMANSHIP

1, Mary Jane Herr, 2, Kenneth Hess.

FITTING

1, Mary Jane Herr 2, Bertha Boose, 2258 Old Philadelphia Pk

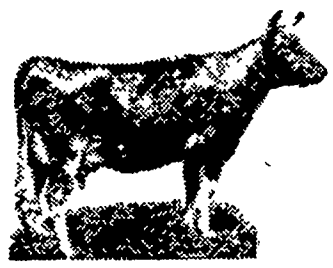
Lancaster Co. Is Top User Of Fertilizers

HARRISBURG — Pennsylvania farmers used 647,242 tons of fertilizer last year, 3 per cent more than they did in 1961, the State Department of Agriculture reported today

More than one-fourth of the total was used in four counties — Berks, Chester, Lancaster and York

Lancaster's total, 66,986 tons, was the highest reported in any county. York was next with 46,004 tons. Pike county was lowest with 14 tons.

Martin's Limestone



Calcium and Magnesium are lost to the soil by leaching (a slow leaking away), and by removal of crops (such as hay and other greens). These need to be replaced by the application of limestone.

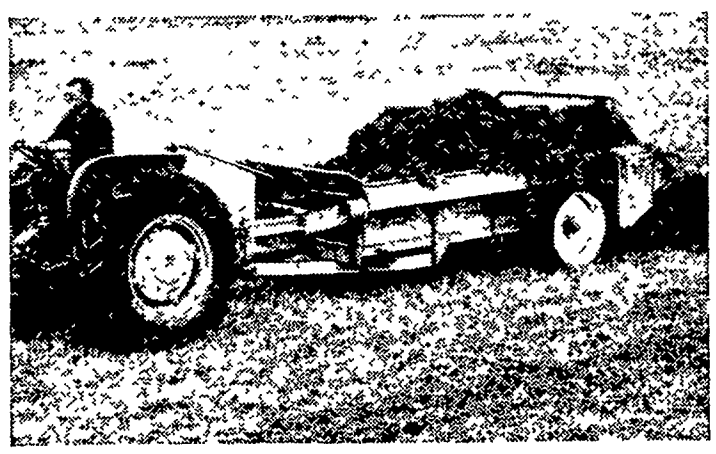
New 140-bushel spreader



STRENGTH and QUALITY
where it counts in a Big Spreader

Look under the box, see how knee braces under compression hold box tight at the top. Notice the full-width, heavy-duty axle.

Look at the beaters and paddles. Paddle-centered delivery from the beaters for uniform spreading. Less buildup on paddle shaft.

Look at the front end — recessed raddle chain with full-length idler shaft. Raddle hugs the floor surface, reduces lodging of cobs or frozen material.

Notice the armored sides — protection against loader damage.

See the clutch-protected power line and heavy-duty, roller-driven chain.

The Model 140 PTO spreader is quality-built for year-round convenient performance. Let us show you.

Finance for profit. Ask us about Allis-Chalmers' time payment plans.
